

2014 CHAMPIONSHIP CRITIQUE MRS V COULTER - Collooney Whippets

Thankyou for the invitation to judge here in Victoria at your 2014 specialty. I thoroughly enjoyed the assignment and friendly atmosphere.

In respect of the males shown under me I found most to be well oversize and coarse, heavy boned and inclined to lose their elegance and true whippet type. Some were so wide in their front and back assembly they were bordering on more Greyhound type. In the bigger dogs their heads were somewhat snipey more in line to that of a Greyhound head with insufficient cheek and jowl development. I also found many with Terrier fronts and upright pasterns. I would be very careful of your future breeding programs to ensure that your males in particular do not become too oversized.

I found more consistency in type with the females in that they were a better size, shape and construction consequently producing correct movement.

I was disappointed to see that some dogs had extremely dirty teeth, nails were long and their general cleanliness was lacking. Overall I was extremely pleased with my winners who depicted true whippet type and were in excellent condition.

BABY PUPPY DOG: (10 Entries)

1ST. 5 – BYERLEY MAUI JIM - (5 months) silver brindle white trim lovely head good strong neck clean front good top line with nice length of loin strong back end very sound coming and going. **BEST BABY PUPPY IN SHOW**
